PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science undergraduate with a strong foundation in Python, SQL, MongoDB, Power BI, and web development technologies. Experienced in developing AI-driven, cybersecurity, data analytics, and dashboard-based projects, with practical exposure to customer relationship management and database management. Skilled in problem-solving, data analysis, decision-making, and building technology solutions that address real-world challenges. Passionate about emerging technologies, continuous learning, and applying data-driven insights to improve business and operational outcomes.

SKILLS SUMMARY

- Databases: MySQL, SQL, MongoDB
- Data Analytics: Power BI, Microsoft Excel, Data Visualization, Dashboard Development
- AI & Data Science: Artificial Intelligence Fundamentals, Prompt Engineering, Data Analysis
- Development Tools: GitHub, Visual Studio, Emergent, Figma
- Web Development: Front-end and Back-end Fundamentals
- Programming: Python, SQL, HTML, CSS

PROJECTS

- Neuro Guard – AI-Powered Intelligent Vault & Secure Chat • Developed an AI-powered cybersecurity platform with multi-factor authentication. • Implemented encrypted file storage and secure communication features. • Integrated AI-based threat detection to enhance data security and privacy. • Focused on secure data management and user authentication.
- Fake News Detection Dashboard • Built an interactive Excel dashboard to analyze fake news trends. • Identified misinformation patterns and high-risk content categories. • Applied data analysis and visualization techniques to generate insights. • Created reports for effective monitoring and decision-making.
- Smart City Energy Tracker • Designed a Power BI dashboard for monitoring energy consumption. • Analyzed peak usage patterns and renewable energy utilization. • Generated insights for energy optimization and cost savings. • Developed interactive visualizations for smarter energy management.

INTERNSHIP EXPERIENCE

Web Development Intern | Feb 2024 – Mar 2024

- Trained in web development fundamentals. • Worked with HTML, CSS, PHP, and SQL technologies. • Developed responsive web pages and applications. • Learned front-end and back-end development concepts. • Gained hands-on experience in website design and maintenance.

EDUCATION

B.Tech – Artificial Intelligence and Data Science Dhanalakshmi Srinivasan College of Engineering, Coimbatore (2022–2026)

CGPA: 7.80

Class X: 79.6%

Class XII (Bio-Maths): 65.3%

CERTIFICATIONS

- Big Data Computing (NPTEL) – October 2024
- UI/UX Design – April 2024
- Agricultural Monitoring System, Planning & Researching, Medical Imaging Sensor – February 2024
- Web Development Certification – March 2023
- Naan Mudhalvan – Microsoft Office 365 Fundamentals – January 2023
- Workshop on Android – March 2023

LANGUAGE

English (Proficient)

Tamil (Native)
